P-SQR Tecknologies

SoftLAB 10.0.0

P-SQR's Calibration Field Experience:

With nearly 20 years of hands-on experience in calibration lab software development, P-SQR has been providing calibration software solutions to many of the STQC labs, NABL accredited labs, plant instrumentation labs and even some of branded calibrator manufacturers.

Proven Success:

Our lab Calibration Management Software **SoftLAB 8 & SoftLAB 9** is being used in high-performance organizations such as ETDC, FCRI, L&T, VOLTECH, etc.

SoftLAB - Quality Standards:

SoftLAB Calibration Management Software helps you to meet out NABL guidelines and follow NABL quality standards with compliance to ISO/IEC 17025. Uncertainty calculations are as per each discipline's NABL documents.

SoftLAB 10 (New Version) - Highlighted Features:

➢ Visualized Status Display for a device from inward to delivery for immediate reply to customer.
➢ Documents Library for each incoming job.
➢ Director's Desk Display for overall activity governance.
➢ Validated Uncertainty Calculation Module for each discipline (ETL, Mechanical, Pressure and Thermal).
➢ Customized Report Designer Module for certificate redesigning as per required format.
➢ Customer-wise Calibration Due Reminder.

SoftLAB 10 - Other Features:

❖ Department wise login module
❖ Job Card Registration module
❖ Device Configuration module
❖ Department-wise Visualized Dashboard module.
❖ Calibration Procedure Import Module
❖ Error Claimed Calculation Module in ETL
❖ Automatic Uncertainty Calculations module
❖ Automatic Calibration Report Generation module
❖ CMC Scope & Scope Check module
❖ Manual certificate upload module
❖ Device History Maintenance module
❖ Export, Backup and Restore Data module
❖ Statistical Reports module
❖ DUC and Master Calibration Reminder module
❖ Optional SMS Sending Module
❖ Optional Invoice & Payment Register module
❖ Optional Dispatch Register module
❖ Optional Service Tax Register module

SoftLAB 10 Optional Modules

Dispatch Register	Payment & Invoice Register	Service Tax Register	SMS Sending

SoftLAB 10 completely eliminates

Unnecessary man power & man hours	Calculation Errors	Repeated Work Procedure	Searching Documents

Dedicatedly Designed for NABL Accredited Labs

Our Prestigeous Customers - ETDC, FCRI

SoftLAB 10 – Products (All are LAN based)

- ➤ SoftLAB 10 Enterprise Edition
- ➤ SoftLAB 10 Standard Edition
- ➤ SoftLAB 10 - ETL
- ➤ SoftLAB 10 - MCL
- ➤ SoftLAB 10 – TML
- ➤ SoftLAB 10 – PRL
- ➤ SoftLAB 10 DUO Edition (any 2 disciplines)
- ➤ SoftLAB 10 TRIO Edition (any 3 disciplines)

SoftLAB 10 - Enterprise Edition (All in one):
Director Desk, Customer Care integrated with all disciplines, Dispatch Register, SMS Sending, Payment & Invoice Register and Service Tax Register included.
(8 User Licenses will be supplied)

SoftLAB 10 - Standard Edition:
Director Desk, Customer Care integrated with all disciplines and Dispatch Register included.
(6 User Licenses will be supplied)

SoftLAB 10 - ETL:
Director Desk, Customer Care integrated with Electro-Technical Lab only. No other modules included.
(3 User Licenses will be supplied)

SoftLAB 10 - MCL:
Director Desk, Customer Care integrated with Mechanical Lab (Dimension, Mass, Volume, Force, Torque, Speed and Sound Parameters) only. No other modules included.
(3 User Licenses will be supplied)

SoftLAB 10 - TML:
Director Desk, Customer Care integrated with Thermal Lab only. No other modules included.
(3 User Licenses will be supplied)

SoftLAB 10 - PRL:
Director Desk, Customer Care integrated with Pressure Lab only. No other modules included.
(3 User Licenses will be supplied)

SoftLAB 10 - DUO Edition:
Director Desk, Customer Care integrated with any two labs. No other modules included.
(4 User Licenses will be supplied)

SoftLAB 10 - TRIO Edition:
Director Desk, Customer Care integrated with any three labs. No other modules included.
(5 User Licenses will be supplied)

Other than Enterprise Edition, if customer needs any of the optional modules, it will be added at additional cost.

SoftLAB 10 has most of major calibration device template formats in-built and hence user can simply install and start using it. Installation procedures are very simple.

SoftLAB 10 has automation drivers for below mentioned ETL Standards and can be activated by purchasing drivers at additional cost.

- ➤ Fluke 5500A, 5520A & 5522A
- ➤ Transmille 2050A, 3041A & 3050A
- ➤ Fluke 8846A
- ➤ Agilent 3458A
- ➤ Wavetek 9100 & 4808
